Summer is the perfect time for exploring the Solar System

Come and see the Moon, Saturn and Jupiter through the telescope!

Eastend Saskatchewan

Wilkinson Memorial Observatory - Ashlyn George

Star Gazing Tours

Wilkinson Memorial Observatory

Established in 1950

Astronomy & the *Night Sky*

This outdoor observatory offers a unique opportunity to explore the stars and see the universe like never before.

Spend a night gazing at the wonders of the universe under the beautiful South West Saskatchewan skies, see the amazing rings of the planet Saturn, and follow the space station as it soars in silence through outer space.

Cowboy Jack Breen, the Milky Way & WMO - Roland Bear

What's at the Observatory

Visitors to the Wilkinson Memorial Observatory, located just outside the community of Eastend, will find:

- a Celestron SCT 11" 2800mm focal length telescope
- 360 degree rotating dome
- eye pieces ranging from 40mm to 10.5mm
- astronomic viewing filters
- a Celestron CGX equatorial mount with a GoTo tracking system

We offer *more!*

Here at the Wilkinson Memorial Observatory, we currently offer:

- solar viewing
- Astronomy and the Night Sky Presentation
- Night Sky Tours, that include the constellations, the moon, the stars, planets, nebulae and galaxies
- Astrophotography/Visual Astronomy workshops
